of that excellent medicine known as Ayer's Cherry Pectoral. Its success in curing the various diseases of the Lungs, is attracting universal attention, not only of the learned and philainthropic, but of the whole public. The article undoubtedly is what it pretends to be, a remedy for Lung Complaints, and the remarkable cures which are becoming known every where, cannot long be over-ooked by the people. March 10

The consequence was, that where slight indisposition only was first manifested, nausea, fever and weakness followed, often resulting in severe spells, which lasted for weeks, and not unfrequently ended in death. Of late years, however, the old practice has somewhat abated, and light stimulants, in order to give the system strength to resist disease, have been resorted to, and the consequence is, that hundreds now recover who, under the old treatment, would have lost their lives. These facts being known—and that they are facts, no one will deny—the natural inquiry is, what preparation now extant, can be administered with the greatest degree of safety, and with the strongest chances of success? To these inquiries, we answer, "BAKER'S CELE—BRATED PREMIUM BITTERS." are the very thing of all others to be administered on ordinary occasions; and for these reasons: they correct the acidity of the stomach, and strengthen it when debilitated—they arouse the liver from torpidity, and produce a healthful action—they expel all foul secretions, and being a superior tonic, they increase and sharpen the appetite, thereby adding strength and activity to the various organs, which enable them to perform their duty with promptness and efficiency. Parents \$\frac{11}{2}\$ find these BITTERS exceedingly beneficial when administered to children; and as a family medicine for ordinary complaints of coids, etc., they will always prove valuable, when regularly administered. Dyspeptics will find these Bitters to be the best remedy ever discovered for their complaint; and persons subject to agues, or living in sections of the country where ague and fever are common, may defy this loathsome disease, if they will but use Baker's C

NEW NOTICES OF THE PRESS

[From the N. V. Courier and Enquirer of Jan. 24th, 1552.]

Worders fan's Planos.—The constantly increasing reputation of the Piano Fortes manufactured by Wordester, authorises our reminding our readers that Wordester's Instruments are as beautiful and ornamental, as they are admitted to be insurpressed in their more essential qualities of musical excellence.

[From the New York Commercial Advertiser.]

"Those dulcet strains," of which 'very truly yours' speaks, came not from a husean threat, but from one of those wonderful pieces of mechanism, known as 'Wordester's Planos.' As we have more than once said, they give forth, next to the melody of the voice in love's whisperings, the sweetest and most perfectly harmonious and melodious tones that we are accustomed to listen to."

We were admiring, a few days since, a very magnificient looking Plano Forte in the elegant drawing room of the Union Place Hotel, when upon an examination of its interior, we were pleased to find that it came from the manufactory of our friend Wordester. Mr Wheeler, the proprietor of the hotel, informed us that, in the last tensors be had bought as many sandaged Plano Fortesto Mr. War.

Wheeler, the proprietor of the hotel, informed us that, in the last ten years, he had bought as many as a dozen Piano Fortes of Mr. Wor-cester, for himself and friends, and that all had given the most perfect satisfaction. We have often said, and we take pleasure in rebeating the truth, that Worcester's instruments are made upon hon or, and equal to any in the world.
